FINAL TRANSNATIONAL PROJECT MEETING IN GRANADA, SPAIN

On 7–8 October 2026, the DIGI-Story project partners gathered in Granada, Spain, for the Final Transnational Project Meeting. This meeting marked an important milestone in the Erasmus+ project Digital Storytellers: Empowering Youth Through Media Literacy and Transmedia, bringing together partner organisations from the Czech Republic, Portugal and Spain.
The meeting provided an opportunity to reflect on the progress achieved, review the project's educational resources and coordinate the final activities before its conclusion.

REFLECTING ON OUR ACHIEVEMENTS

Throughout the project, DIGI-Story has promoted media literacy, critical thinking, responsible online behaviour and digital storytelling among young people.
During the Granada meeting, partners reviewed the activities implemented and the main project outputs, exchanging perspectives on their educational relevance and potential application in youth work.
Particular attention was given to the Online Behaviour Guide, transmedia storytelling materials and digital educational resources designed to support young people in navigating online environments critically, creatively and safely.

STRENGTHENING EUROPEAN COOPERATION

DIGI-Story has demonstrated the value of international collaboration in addressing shared challenges related to digital citizenship.
By bringing together organisations from different European contexts, the project has supported the exchange of educational practices and the development of resources that can be adapted to different learning environments.
The Granada meeting reinforced the partners' shared commitment to promoting inclusive and responsible digital participation.

EVALUATING RESULTS AND SHARING EXPERIENCES

Evaluation and quality assurance were central topics during the meeting. Partners discussed feedback gathered through the project's activities and multiplier events, identifying achievements, lessons learned and opportunities for improvement.
The discussions also highlighted the importance of making digital education accessible, participatory and responsive to the needs of young people.

"Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the Centre for International Cooperation in Education (DZS). Neither the European Union nor the granting authority can be held responsible for them."

SUSTAINABILITY AND NEXT STEPS

BAs DIGI-Story approaches the end of its implementation period, the consortium is focusing on dissemination, the accessibility of educational resources and their potential use beyond the project.
The next steps include completing the remaining activities, sharing the project results with wider audiences and encouraging educators, youth workers and young people to explore and use the materials developed.

THANK YOU FOR BEING PART OF DIGI-STORY!

We would like to thank all project partners, participants, educators and young people who have contributed to this collaborative journey.
Together, we continue working towards a more informed, creative and responsible digital generation.
